

JudiQ AI

LEGAL INTELLIGENCE PLATFORM — USER GUIDE

Version 1.0 • For Professional and Internal Use • September 2026

01

What Is JudiQ AI

JudiQ AI is a specialised legal intelligence platform designed for lawyers, litigators, and legal professionals practising in Indian courts. It automates case analysis, legal drafting, and document intelligence under the Negotiable Instruments Act, SARFAESI Act, Bharatiya Nyaya Sanhita, Code of Civil Procedure, and Criminal Procedure Code.

Primary Jurisdiction	Courts of India — Magistrate, District, High Court, and Supreme Court
Core Technology	Gemini AI (Google) with deterministic legal rule engine fallback
Supported Statutes	NI Act 1881, SARFAESI Act 2002, BNS 2023, CPC 1908, CrPC / BNSS
Supported Languages	English (all tiers), Marathi and Hindi (Standard Plan and above)
Access Mode	Web application — no software installation required

02

Why Use JudiQ AI

Common Problem in Practice	How JudiQ AI Addresses It
Manual case strength assessment is time-consuming	Automated Case Readiness Score (0–100) with statutory checklist in seconds
Drafting legal notices and court applications from scratch	Instant court-grade drafts: Legal Notice, Sec. 143A Application, Written Statement, Vakalatnama
Extracting key facts from case documents	AI document intelligence extracts parties, amounts, dates, and defects from uploaded PDFs and images
Preparing Marathi or Hindi drafts for lower courts	Gemini-powered translation with authentic Bombay HC and District Court legal terminology
Tracking multiple client matters and status	Built-in Client Management System with case docket auto-creation on document upload
Locating applicable Supreme Court precedents	Curated precedent database with classification: BINDING / HIGHLY RELEVANT / DISTINGUISHABLE

03

Platform Structure

ANALYSIS ENGINES

Engine	Purpose
Section 138 / NI Act Engine	Full statutory audit: limitation, notice validity, demand amount, court jurisdiction

Engine	Purpose
SARFAESI Engine	Bank recovery analysis under SARFAESI Act 2002, Sec. 13(2) notices and DRT proceedings
Criminal Defense Engine	BNS / CrPC risk profiling, bail strategy assessment, and charge sheet analysis
Civil CPC Engine	Civil suit analysis: jurisdiction, limitation, plaint requirements, interim relief eligibility
Counsel Intel Engine	Strategic intelligence: forum selection, settlement probability, opposing-party risk profiling

SUPPORTING TOOLS

Tool	Function
Document Intelligence	Upload cheques, return memos, and notices. AI extracts all key facts and auto-creates a case docket.
Legal Draft Studio	Generate, preview, download (PDF / Word), and print court-ready drafts in English, Marathi, or Hindi.
Case Chat	Conversational assistant that answers legal questions within the context of a specific loaded case file.
Client Management System	Create and track client profiles, case dockets, and complete matter history.
Precedent Library	Searchable Supreme Court and High Court judgment database with applicability classification.

04

How to Use JudiQ AI

RECOMMENDED WORKFLOW — DOCUMENT UPLOAD ROUTE (FASTEST)

- 1 Register or Sign In**
 Create an account or log in with your existing credentials. The Free Tier is activated automatically upon registration.
- 2 Upload Case Documents**
 Click "Upload & Extract Docs" from the dashboard. Upload cheque images, return memos, demand notices, or any relevant PDF. The AI extracts all facts and creates a case docket.
- 3 Review Extracted Facts**
 Verify the extracted party names, amounts, dates, and statutory defects in the Document Intelligence panel. Correct any inaccuracies using the Manual Case Entry form.
- 4 Run Case Analysis**
 Select the appropriate engine (e.g., Section 138 for cheque bounce). The system generates a Case Readiness Score, strength indicators, risk flags, and applicable precedents.
- 5 Generate Legal Drafts**
 Open the Legal Draft Studio. Select the draft type and preferred language. Download as PDF or Word document.
- 6 Use Case Chat**
 Open Case Chat for the loaded matter. Ask specific legal questions in the context of your case facts. The assistant uses your uploaded case data as its exclusive reference.

ALTERNATIVE WORKFLOW — MANUAL CASE ENTRY

If documents are not available, click “Manual Case Entry” from the dashboard and complete the step-by-step intake wizard. All fields correspond to standard court document requirements. Once submitted, the system runs the selected analysis engine automatically.

05

Access Tiers & Quotas

Tier	Reports	Drafts	Languages	Price
Free Tier	5 lifetime	1 per draft type (lifetime)	English only	No charge
Standard — 1 Month	10 / month	Unlimited	EN, Marathi, Hindi	Rs. 999
Standard — 3 Months	30 total	Unlimited	EN, Marathi, Hindi	Rs. 2,699
Standard — 6 Months	60 total	Unlimited	EN, Marathi, Hindi	Rs. 4,999
Standard — 12 Months	120 total	Unlimited	EN, Marathi, Hindi	Rs. 8,999
Single Report Top-Up	+1 on demand	—	—	Rs. 149 / report

NOTE Monthly quotas reset on the billing anniversary date. Free Tier quotas are lifetime and do not reset. Single report top-ups increment the available quota without resetting reports already consumed. Multilingual drafting (Marathi and Hindi) requires the Standard Monthly Plan (Rs. 999/month) or higher.

06

Frequently Asked Questions

Can I use JudiQ AI without uploading any documents?

Yes. The Manual Case Entry wizard accepts all inputs without requiring document uploads. However, document upload is faster and reduces the risk of data entry errors.

Are the legal drafts ready for court submission?

Drafts are formatted to standard Indian court conventions. It is recommended that a qualified advocate reviews and signs all documents prior to filing.

How is my case data stored?

Case data is stored in an encrypted PostgreSQL database. Each account's data is isolated and accessible only to the authenticated user.

What happens when my monthly report quota is exhausted?

You will be prompted to purchase a Rs. 149 single report top-up or upgrade to the next plan tier. No existing case data is deleted.

Is Marathi or Hindi drafting available on the Free Tier?

No. Multilingual drafting (Marathi and Hindi) requires the Standard Monthly Plan (Rs. 999 per month) or higher.

Which court formats are supported?

Drafts follow Bombay High Court and subordinate District Court formatting for Marathi matters, and standard national court formatting for English and Hindi drafts.
